PETITION

To the Legislative Assembly of Ontario:

Whereas, residents of Ontario want a moratorium on all further industrial wind turbine development until a third party health and environmental study has been completed;

And Whereas, people in Ontario living within close proximity to industrial wind turbines have reported negative health effects we need to study the physical, social, economic and environmental impacts of wind turbines;

And Whereas, Ontario's largest farm organization, the Ontario Federation of Agriculture and the Christian Farmers Federation of Ontario has called for a suspension of industrial wind turbine development until the serious shortcomings can be addressed, and the Auditor General confirmed wind farms were created in haste and with no planning;

And Whereas, there has been no third-party health and environmental studies done in industrial wind turbines and the Auditor General confirmed there was no real 'plan' for green energy in Ontario and wind farms were constructed in haste;

We, the undersigned, petition the Legislative Assembly of Ontario as follows:
That the Liberal government support Huron-Bruce MPP Lisa Thompson's private members motion which calls for a moratorium on all industrial wind turbine development until a third party health and environmental study has been completed;
